#UBUNTU

Ubuntu (Zulu pronunciation: [ùbùnt'ù]) is a term meaning **"humanity."** It is often translated as **"I am because we are,"** or **"humanity towards others,"** but is often used in a more philosophical sense to mean **"the belief in a universal bond of sharing that connects all"**. We believe this one word **describes Dr. Reginald Mengi comprehensively.**

WHY MONTH OF MAY? The month of May is a natural choice for this dedication because it is the month of his birthday, his passing and the month, which this foundation was registered. We plan to promote a community campaign to dedicate the month of May as a giving month in Tanzania.

In collaboration with COPE, Jakaya Kikwete Youth Park (JMKP) and National Blood Transfusion Services we shall promote the philanthropic acts of Dr. Reginald A. Mengi to motivate and inspire Tanzanians to give back to the community through the **UBUNTU** hashtag

From 1st To 31st MAY 2020

The Activities planned for the Month of May 2020 include;

1. Dr. Reginald Mengi Inclusive Charity Walk-athon
2. "Walk in My Shoes" Inclusive Sports
3. A National Tree Planting Campaign "Protect the Next Generation"
4. A National Blood Donation Campaign "Save a Life"

All Tanzanians let's give a **SMILE** to those in need, let's keep the **"Giving Heart"** candle of Dr. Reginald Mengi alive. We welcome other partners to join our campaign. The Ubuntu campaign is a platform for independent acts of humanity during the month of May. Each one of us can become a symbol of **HOPE** to communities around us.
